Fire Protection  
for Electrical Services and Cables

# 2MT HEATSHIELD - Fire Protection of Electrical Services and Cables

The 2MT **HEATSHIELD** range of products are designed to restrict the spread of fire and smoke from one compartment to another where electrical cables and services penetrate separating walls and floors.

2MT **HEATSHIELD** FR Pillows, Putty Pads, Sealants, Coatings and Collars offer designers, services engineers and specifiers a range of options and solutions to the growing complexity of maintaining the fire safety of electrical services.

- Comprehensively tested and Classified by independent authorities in accordance with BS EN 1366-3 2009 and BS EN 13501-2: 2007 + A1: 2009 for up to 2 Hours fire resistance.
- Suitable for a wide range of cable types and sizes
- Can be used in Drywall construction
- Labour saving / easy installation
- Unaffected by moisture or atmospheric Carbon Dioxide.

2MT **HEATSHIELD** products are suitable for use in any building which has electrical services and cables which penetrate through fire rated compartment walls and floors.

These include:

Apartment blocks, Hotels, Hospitals, Schools, Prisons, Airport Terminals, Shopping Malls, etc .

For Installation details please refer to relevant 2MT **HEATSHIELD** technical data sheets.
